PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of experience building production web and mobile applications using React, Next.js, React Native, NestJS, Node.js, TypeScript, MongoDB, and PostgreSQL. Experienced in developing multi-role service platforms, real-time communication systems, scheduling and work-order workflows, payment integrations, notifications, third-party APIs, and AI-powered applications. Hands-on experience with Redux Toolkit, RTK Query, WebSockets, Twilio, OpenAI APIs, AWS, Docker, Kubernetes, Terraform, Prometheus, and Grafana.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), TypeScript, Python, SQL
- Frontend: React.js, Next.js, Redux Toolkit, RTK Query, Ant Design, Refine Framework, Responsive UI
- Mobile: React Native, Expo, Firebase, FCM, Mobile API Integration
- Backend: Node.js, NestJS, FastAPI, REST APIs, WebSockets, Swagger/OpenAPI, Microservices
- Databases: MongoDB, Mongoose, PostgreSQL, Firebase, Redis
- Authentication & Security: JWT, RBAC, PBAC, Authentication & Authorization
- Integrations: Twilio (SMS & Voice), OpenAI APIs, Stripe, Razorpay, AWS SES
- Cloud & DevOps: AWS (EC2, S3, SES, IAM, CloudWatch, Route 53, Load Balancer, ECR, ECS, RDS, VPC), Docker, Kubernetes, Terraform
- Monitoring & Observability: Prometheus, Grafana, CloudWatch
- Development Tools: Git, GitHub, Postman, Swagger

PROFESSIONAL EXPERIENCE

VIDMAGIN INNOVATIONS PRIVATE LIMITED — Coimbatore, India

MTS-I (Member of Technical Staff – I) | Full-Stack Developer / Team Lead

Aug 2024 – Present

- Developed and maintained 5+ production web applications, 5+ Android applications, and 3+ admin portals across customer, technician, company, and administrative workflows.
- Built and integrated 100+ APIs across applications using NestJS, Node.js, MongoDB, PostgreSQL, REST APIs, Swagger, authentication, authorization, and third-party integrations.
- Developed responsive web interfaces and cross-platform mobile applications using React, Next.js, React Native, Expo, Redux Toolkit, RTK Query, Ant Design, and Refine Framework.
- Implemented real-time application workflows using WebSockets, including work-order status updates, technician/customer tracking, notifications, dashboard updates, and chat-related functionality.
- Developed end-to-end service management workflows covering scheduling, work-order assignment, technician availability, customer tracking, service execution, before/after job details, completion updates, and notifications.
- Implemented Google Maps/location-based workflows for technician tracking, customer location monitoring, and service operations.
- Integrated Twilio SMS and Voice, AWS SES, Firebase/FCM, and other third-party services for communication and notification workflows.
- Integrated Stripe and Razorpay for one-time and payment-related workflows, including checkout, payment verification, status handling, and webhook-based processing.
- Built AI-powered workflows using OpenAI APIs, including prompt engineering, job-description scoring, candidate evaluation, ATS-oriented shortlisting, and structured AI responses.
- Implemented caching and session-related workflows using Redis and worked with MongoDB/PostgreSQL for application data management, querying, indexing, and transactional operations.
- Worked across the complete software development lifecycle, including requirement analysis, development, debugging, testing, code review, Git workflows, deployment support, and production issue resolution.
- Led a 5-member development team, supporting task allocation, technical guidance, code reviews, requirement clarification, issue prioritization, and delivery coordination.

KEY PROJECTS

FutureSend — Multi-Channel Messaging & Scheduling Platform

React Native, NestJS, MongoDB, Twilio, AWS SES, WebSockets, Firebase

- Developed a cross-platform messaging and scheduling application supporting SMS and email communication workflows.
- Implemented backend APIs, MongoDB data workflows, Twilio integrations, WebSocket-based real-time updates, and notification functionality.
- Worked on conversation, scheduling, dashboard, history, draft, inbox, and chat-related workflows.

Servira — Multi-Role Service Management Ecosystem

React Native, React, Refine, Ant Design, RTK Query, NestJS, MongoDB, WebSockets

- Developed customer, technician, service-company, and admin workflows for an end-to-end service management ecosystem.
- Implemented service scheduling, work-order assignment and tracking, technician availability, customer/technician monitoring, service execution, before/after job details, and completion workflows.
- Integrated Google Maps/location tracking, payments, notifications, WebSockets, and IoT-based device monitoring.
- Developed administrative workflows for technician/customer management, service categories, subscriptions, payments, analytics, work-order monitoring, and technician assignment.

AnvianOS — Field Service & Work-Order Application

React Native, Expo, NestJS, WebSockets, Google Maps, Firebase/FCM

- Developed mobile workflows for technicians and service operations, including work-order management, location tracking, map-based workflows, status updates, and notifications.
- Implemented real-time work-order and dashboard updates using WebSockets.
- Worked on Android application builds and deployment workflows using Expo/EAS.

Vetri-IQ — Competitive Exam & AI Learning Platform

React Native, Next.js, OpenAI API, PostgreSQL

- Developed an educational platform supporting mock tests, previous-year question banks, book reading, and AI-assisted learning workflows.
- Integrated OpenAI APIs for AI-generated learning assistance, prompt-based content generation, and memorization-oriented workflows.

Clipo — Video & Tournament Media Platform

React, NestJS, MongoDB, AWS

- Developed role-based workflows for sports and tournament video management, including content publishing and controlled access for different user roles.
- Worked across frontend, backend APIs, database workflows, and AWS-based application functionality.

EDUCATION

Master of Science (M.Sc.) — Computer Science

Government Arts College, Dharmapuri, Tamil Nadu

Graduated: June 2023 | CGPA: 7.56 / 10
